INSTITUTION USER LICENCE FOR RESEARCH4LIFE CORE OFFER

The Research4Life programmes, Hinari, AGORA, OARE, ARDI and GOALI are coordinated by the World Health Organization (WHO), the Food and Agriculture Organization (FAO), the United Nations Environment Programme (UNEP), the World Intellectual Property Organization (WIPO), and the International Labour Organization (ILO) respectively. The programmes are a collaboration between the UN entities, academic, professional and scientific publishers and other content providers and are intended to provide access to research information to non-profit academic, research, governmental or policy making institutions in lower income countries. Access to this information will generally be provided at no cost by the Publishers to institutions in countries, areas and territories categorized as Group A (as defined in Section 1: Definitions). Access to this information will generally be provided at low cost by the Publishers to institutions in countries, areas and territories categorized as Group B (as defined in Section 1: Definitions). Access will be governed by the terms of this Licence.

As each programme’s Publishers Statement says, participating publishers will provide access to a wide range of academic, professional and scientific journals, abstract and indexing databases, and other content resources.

In order to benefit from this offer, qualifying institutions in Core Offer countries, areas and territories which sign up for access will maintain their existing journal subscriptions, as of the year of their registration for Research4Life access.

This Licence constitutes a formal and legal agreement between

..........................................................................................................................(Institution)

and the Publishers listed on Annex A for access to and use of the online content published by the Publishers and listed and amended from time to time on the programme portals (http://www.who.int/hinari, http://www.fao.org/agora/, https://www.unenvironment.org/explore-topics/environment-under-review/what-we-do/information-management/online-access-research, http://www.wipo.int/ardi/, http://www.ilo.org/goali). The Licence is exclusive to the Institution named at the head of the Licence and may not be extended to any other institution or party without the express written agreement of the Publishers. The UN entities facilitate the licence processing on behalf of the Publishers.
